

Blairstone Forest Grounds Committee Report

March, 2022

1. Thanks to the donation of 7 trees by Adopt-A-Tree Tallahassee and the work of several of our neighbors, 3 Black Gum (Tupelo) and 4 Winged Elm were planted around the pond. I'd like to thank everyone who donated trees and time to get the trees planted.
2. Leaf mulch was replaced on the walkway around the pond. Please make sure that leaf mulch is not removed from any common areas by mistake. Make sure that you tell your yard maintenance people, if you employ them, to leave the mulch in the common areas, especially around the pond. Also, please don't mow in the common areas, especially around the pond.
3. Buckeye trees donated to the pond were planted around the bridge area and have been watered by neighbors. All 5 of the trees are doing well. Thanks to everyone who has watered them.
