

Blairstone Forest Community Association
Tree Removal Request Form

This form should be completed and submitted for any tree removal(s) which are considered non-emergencies. The Covenants specify a fine of \$150/inch of circumference for cutting a living tree with a diameter of 6 inches or more (measured three feet from the ground), without the prior authorization of this completed form and Board approval of the cutting. Please refer to the Tree Removal Procedures form on this website for information that will be helpful.

However, in the event of an emergency, notify any member of the Board by email, phone call, visit, or through our website at blairstoneforesthwa.com. Call a tree removal expert and have the job done. In an emergency, no procedural issue should prevent a homeowner from protecting persons and/or property.

Name of Homeowner _____

Address _____

Phone Number _____ Email Address _____

List tree(s) to be removed - Species and Diameter 3' above the ground.

Show locations
of trees on lot

House

Road
